Zapata Technology Marks 10th Anniversary with Growth Spike

Augusta, GA – August 1, 2017 —Zapata Technology, an Augusta, GA based technology software solutions firm, is celebrating its ten-year anniversary supporting the Department of Defense and the local community. The company is led by Randall Zapata, Chief Visionary Officer, and his great focus culture and the team doing their best. Zapata Technology is one of the top innovative small business defense contractors and was named Washington Technology and Inc. magazine's fastest growing company award two years in a row. Zapata Technology employs 76 across the globe to include GA, NC, AZ, MD, HI, VA, DC, and CO.

Established in 2007, the company has seen the success of its mission-focused commitment to saving lives by providing the highest caliber of expertise in order to address the mission challenges through innovative cyber technologies, software engineering solutions, augmented intelligence, and GPU programming. Known industry-wide for its commitment to efficient and effective solutions delivered by means of careful planning and broad vision, Zapata Technology has grown over 90% to date in 2017 with critical awards supporting the Army G2, INSCOM G3, PM DCGS-A and USASOC G2.

Zapata Technology is an SBA 8(a), HUBZone certified, small business that expects an increasing demand for talented IT professionals with security clearances to address mission-critical objectives faced by our service people.
