Zapata Technology, Inc. Celebrates Anniversary Zapata celebrates nine years of business in August

Augusta, GA - August 26, 2016 – The IT solutions company based out of Augusta, GA dives into its 10th year in business with a bright future and new look.

Zapata Technology, Inc. opened its doors in 2007 and continues to be one of the fastest growing small businesses of its kind. The company focuses mainly on government contract work. Since its inception, the company has received countless accolades and obtained numerous certifications, to include 8(a) and HUBZone. In the past nine years, the company has earned millions in revenue, employed a wide range of talent, and expanded into the historic Enterprise Mill location. September is expected to be one of Zapata's biggest months as the company prepares for its first Prime contract. A new logo and website are also expected to be unveiled in the coming weeks. Anyone interested in joining the company is urged to visit the website www.ZapataTechnology.com for more information.

About Zapata Technology, Inc.: Founded in 2007, Zapata Technology is an 8(a), HUBZone certified, veteran-owned, and self-certified Small Disadvantaged Business (SDB) IT consulting company focused on the U.S. Federal market.
